

# Math 1062, Spring 2012, Homework 6

William Stein (wstein@uw.edu), <http://wiki.wstein.org/edu/2012/480>

**Due: Friday, March 2, 2012**

- I will have office hours 11am–2pm in Padelford C423 on Thursday, March 1.

## 1 Homework

1. Write a *rough draft* of your final project. Anything that shows reasonable effort will receive a grade of 100% for this homework. The main point is that I will be able to give you feedback on your project before you turn it in on **Friday, March 9th, at midnight**. If you are working with several other people on your project, then you can (but don't have to) all turn in the same rough draft.
