

TACC - Outline

TACC SAGE Workshop Schedule

William Stein, Professor of Mathematics, University of Washington

1. Introduction to Sage (talk)

(break)

2. Tutorial on Symbolic Expressions and 2D Plotting

(break)

3. Tutorial on Numerical Computation in Sage

WRAP UP:

...

1. You have a general sense of what Sage is all about.
2. You now have some hands on experience with Sage.
3. Sage is big and powerful.
4. Sage is still rough around the edges, and it needs *your help* to truly be a viable alternative to MATLAB, which it isn't yet in all cases.
5. So help.
